

Founder's Integrity Statement

Volunteer Coin Project Foundation (VCPF)

The Volunteer Coin Project Foundation was created to serve people first - not profits. Our mission is to uplift communities by recognizing the value of time, kindness, and service. The PIF Token represents a new kind of currency: one earned by action and redeemable through compassion.

Trust Commitments

- Fair Distribution: Early token sales are capped to prevent manipulation and ensure wide access.
- Real Value: PIF tokens are backed by gold and Bitcoin to give our volunteers meaningful, redeemable rewards.
- Transparency: We publish all allocation, treasury, and reward strategies openly to our supporters.
- Verification Required: Volunteer hours are verified by approved partner organizations before PIF tokens are issued. Token payouts may be delayed by up to 7 days for review and validation.
- No Pay-to-Play: No one is paid to recruit others, and participation is never dependent on purchase or referral.
- Nonprofit Integrity: VCPF operates as a nonprofit, and our leadership team is committed to accountability and service.

A Word from the Founder

This project began with the simple belief that people who give their time deserve to be seen, rewarded, and empowered. I'm not here to build a pyramid - I'm here to build a movement. And I promise to do it with integrity, transparency, and heart.

- Founder, Volunteer Coin Project Foundation
